info@swissdeerefarm.com

Our farm is located in the Swiss midlands, between Bern and Zurich. The farm covers a total of 16.5 hectares of agricultural land and 5 hectares of forest. We run a mixed farm with boarding horses, red deer and arable farming. The deer husbandry is small and takes place on 4.5 hectares of fenced area. A stream flows through our enclosure and we have a dam that holds back the water during heavy rains and floods the enclosure, thus protecting the lower-lying village from flooding. Most of the feed is produced on the farm. The meat produced is sold almost exclusively to private customers, as well as a larger catering company. The breeding animals come from Switzerland, Poland and Austria. We also have a small company for assembly and disassembly of ceiling and partition wall systems and acoustic solutions for ceilings and walls. Since 2022 i am with Miss Carmen Pfrunder Co President of the Swiss Deer Farmers Association
